These guys are great! Our system was about 50 years old. They worked with me to get the equipment we needed. I had several technical glitches trying to get the everything working and lacking some knowledge to do this. Tech support was not just patient, but incredibly helpful. They helped us identify our needs and worked to ensure we were very happy with the results. We eventually got it all done and we could not be happier! I can assure you, this is the company you want to use. Pastor Larry Bass
